

## FS 2017: Proceedings of 4th National Convention

### INDEX

| Section                        | Author   | Subject   | Page  |
|--------------------------------|--|---|-------|
|                                |  | <b>Messages and Key Note Address</b>  |       |
| <b>1 Innovative Uses</b>       | Anil Kumar Dhope   | 'Sumati Greens' Farmhouse project at village Nigri, Jabalpur (Madhya Pradesh)   | 1-4   |
|                                | Shrihari Chaudhary,<br>Arch. L.J. Dahibhate, Er.<br>Arun Ghate   | Construction of FERROCEMENT Arch type Bandhara – a case study   | 5-9   |
|                                | Arun Purandare   | Development of innovative ferrocement system  | 10-13 |
|                                | Ashok Jain   | Some innovative applications of ferrocement   | 14-19 |
|                                | W. P. R. D. Weerasinghe,<br>G. K. K. A. De Silva                 | Development of Ferro-cement technology based solution for cost effective water storage and sanitation purposes, for communities and households- a case study. | 20-26 |
|                                | W. P. R.D. Weerasinghe   | Development and construction of ferrocement foot bridges for rural mobility enhancements– an investigation with a case study                                  | 27-34 |
|                                | Arch Kalyani Salvi And<br>Kiran Rajurkar                         | Use of Debris and Ferrocement technology for making Street furniture  | 35-38 |
|                                | J A Desai  | Construction of water tank with unconventional ferrocement technology   | 39-42 |
|                                | Sunil Kute, Nikhil Patil,<br>Tushar Chaudhari,<br>Piyush Deo     | Analysis and Design of Ferrocement Cut-off Trench in Earthen Dam  | 43-49 |
|                                | Padmanabh Lele   | Ribbed Slab with Ferrocement at Wai, Maharashtra- a case study  | 50-53 |
|                                | Dr B N Divekar   | Case Studies of Unconventional Large Size Ferrocement Structures  | 54-61 |
| <b>2 Materials and Methods</b> | Dr. S. Thirugnanasambandam,<br>Sushil Kumar Singh                | Flexural behaviour of prefabricated ferrocement roofing channels  | 63-72 |
|                                | Dr. V. Sreevidya,<br>Mahima Ganeshan, Dr.<br>R. Venkatasubramani | Impact Strength Studies on Ambient Cured Fibrous Ferro Geopolymer Slabs   | 73-80 |
|                                | G. Deepana,<br>U.Anbukarnan ,<br>D.Shobarajkumar                 | Experimental investigation on the mechanical Properties and durability of ferrocement on partial replacement of cement by nanosilica                          | 81-90 |

|                               |   |   |         |
|-------------------------------|---|---|---------|
|                               | V.Balasubramaniam,<br>P.Dhinesh Kumar,<br>B.Janarthanan,<br>G.Naresh,<br>D.Shoba Rajkumar | Significance of Red Mud and Crusher Sand in Ferro-Geocrete                                    | 91-99   |
|                               | Arjun Subhash<br>Ghodake, Jayant<br>Murudkar  | Recycling of GGBS into geopolymer concrete and creating eco-friendly cement product           | 100-108 |
|                               | Er Chandramohan<br>Hangekar<br>Er Ravindra Upasani<br>Er. Ravindra Shrigiriwar            | Test procedures for Ferrocement composite   | 109-118 |
|                               | Dhatrak K. K., Prof<br>Sanap S.T., Prof. Patil N.   | Flexural and compressive strength of ferrocement using colloidal nano silica                  | 119-130 |
| <b>3 Designs and Drawings</b> | Ar Kalyani Salvi  | Architectural ferrocement drawing to construct efficient and economical ferrocement building. | 131-135 |
| <b>4 Applications</b>         | Sunil Shrivastava,<br>Prakash M Singh &<br>Hemlata Andola                                 | Ferrocement technologies:<br>Helping in transformation in hilly terrain of Uttarakhand        | 137-140 |
|                               | U. M. Paranjpe  | Need to store water in Rural area - Ferrocement solution                                      | 141-143 |
|                               | Arch M M Paranjape,<br>Pune   | Poultry litter digesters (bio-gas plant)  | 144-147 |
|                               | Er. D A Patel   | Mixed use of ferrocement technique In small works   | 148-153 |
|                               | Sunil Kute,<br>Hiralal Pawar,<br>C. P. Patel  | Ferrocement panels using Expanded Polystyrene (EPS)   | 154-160 |
| <b>5 Technology</b>           | Prof S V Patankar, Dr.<br>Sanjay S. Jamkar, Dr.<br>Yuwaraj M. Ghugal                      | Go green with geopolymer mortar- an alternative to cement matrix in ferrocement applications  | 161-168 |
|                               | Er. Girish Sangle<br>Er G. B. Nannor<br>Er. Chandrashekhar<br>Hangekar                    | Will Ferrocement replace Concrete?  | 169-170 |
|                               | President, Ferrocement Society (India)  | Unexplored Ideas and New Concepts in ferrocement Technology                                   | 171-173 |
|                               | P N Balaguru  | Geopolymer Composites for Enhancement of Ferrocement Structures                               | 174     |
|                               | Ashok Jain  | A rural home- Complete, affordable, aesthetic & eco-friendly.                                 | 175     |
